About me

I am a full stack developer with solid skills in solving problem , teamwork, planning and meeting objectives, a product of my years of experience as a civil engineer in the construction industry.
My journey as a programmer begins as a self-taught person, and then, in order to accelerate my learning curve, I start a coding bootcamp focused on the PEARN technology stack.
Today I find myself facing the challenge of starting my career in the technology industry, where I aspire to be part of a work team where I can contribute and professionally grow.

FULL STACK DEVELOPER - CIVIL ENG.

Experience

PLATAFORMA 5 8/2023 - 12/2023

Software Development Mentor

I fulfilled the role of mentor and assistant, providing guidance and support to the students in various practical activities of the bootcamp.

GLOBANT - Broken Office 07/2023 - 08/2023

Professional practice

I took part in the development of a mobile-first application aimed at streamlining the process of reporting tool failures for company staff. We employed geolocation technologies, machine learning, and other innovative resources to achieve an efficient and intuitive user experience

PLATAFORMA 5 - E-COMMERCE 06/2023 - 07/2023

Professional practice

I participated in the development of a collaborative project focused on creating an e-commerce platform. The main objective was to allow users to select products and add them to the shopping cart. Additionally, we implemented a product search system, integrated user registration into a database, and an admin mode enabling app management by the owner

CEMYC SRL - CONSTRUCTION CO. 07/2019 - 01/2023

Construcion manager

I worked as a construction manager in a civil public works environment, performing various tasks such as work coordination, logistics, staff management, certifications, quantity surveys, and budgeting, among others.

Education

PLATAFORMA 5 - CODING BOOTCAMP 05/2023 - 09/2023

Intensive training in JavaScript and the PERN technology stack, applying agile methodologies and pair programming. Over 800 hours of training over a period of 4 months.

PLATAFORMA 5 - FRONT END INTRODUCTORY 01/2023 - 03/2023

Preparatory course for entry into the coding bootcamp, covering fundamental concepts of JavaScript, HTML, and CSS.

NATIONAL TECHNOLOGICAL UNIVERSITY - SANTA FE 2008 - 2018

Civil Engineer - Graduated
